1981

DAIRY FARM BEAUTIFICATION AWARDS

These awards are presented at the Annual Dairy Convention and are given to the recipients based on the following:

1. General overall appearance of the farmstead
2. Cleanliness of milk house and dairy barn
3. Production of high quality milk
4. No incidence of antibiotics or added water for one year

WINNERS

Erwin & Norma Oswald & Family of
Steinbach, Manitoba

Previous Winners

Maurice Delichte & Family, St. Alphonse 1980
John Tomyk & Family, Stonewall 1979
Arnold Andres & Family, Roblin 1978
Frank Plett & Family, Landmark 1977
Jim Griffin & Family, Woodlands 1976
Hugh Jameson & Family, Brandon 1975
Don & Gordon MacDonald, Brandon 1974

RUNNER-UPS

Glen & Marilyn Gurr & Family of
Alexandre, Manitoba

Previous Runner-ups

Erwin Oswald & Family, Steinbach
Harry Elliot & Family, Stonewall

FOREWORD

During 1981 Dairy producers in the province continued to show a greater interest in Milk Recording by having 15 new herds enrolled on the Federal ROP program, 63 new herds enrolled on the provincial DHIA program and 30 new herds on the Owner Sampler program, for a total of 108 new herds. This was the largest increase in membership since the inception of cow testing in Manitoba.

The expansion in enrollment is due mainly to the efforts of the Manitoba Agriculture Extension Staff, the Dairy Farm Inspectors, the Manitoba Milk Producers' Marketing Board, the DHIA Supervisors and ROP Inspectors for promoting the benefits of Milk Recording. We would like to thank the Agriculture Canada ROP staff for providing us with the information for the ROP section of this report and thank Wendy Davidson of Manitoba Agriculture for typing this Annual Summary.

Interest also continued to grow in the official DHIA program with 15 new herds joining in 1981. Continued interest was also shown in the NIP program, and we would encourage to have all producers have their dairy cows positively identified.

Three new DHI Associations were also organized in Manitoba in 1981.

1. The Yellowhead DHIA in the St. Lazare area on November 19, 1981.
2. The Lake Centre DHIA in the Arborg area on November 26, 1981.
3. The Mound View DHIA in the Pilot Mound area on December 14, 1981.

Production on ROP showed a slight increase of 54 kg per cow for Holstein herds while on DHIA there was a slight decrease of 24 kg per cow, due mainly to the large number of new herds joining the program.

During the past year we witnessed the first NIP animals to be upgraded to the Registered status, so you will find several pages in this report devoted to the Q.E. or Qualifying Entry program.

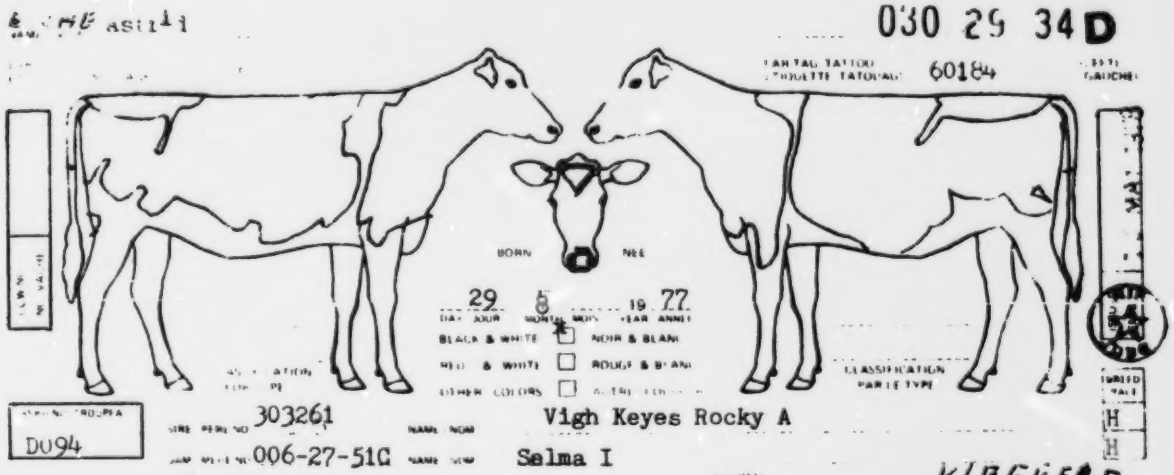
Although protein testing for individual cows was performed for herds on DHIA and Owner Sampler, none of the results are reported in this publication.

Marcel Fraser - Provincial DHIA Fieldman
William Steinke - Owner Sampler Fieldman
Anne Harrop - Milk Records Co-ordinator

FIRST D.H.I.A. Q.E. IN MANITOBA

Below is a photocopy of the first DHIA N.I.P. Dam to have a heifer eligible for Registration, through the Qualifying Entry program (Q.E.).

PHOTOCOPY/APPLICATION OF QUALIFIED DAM'S CERTIFICATION
PHOTOCOPIE/APPLICATION DE LA QUALIFICATION DE MERE QUALIFIEE



PRODUCTION 4YR 8199 276 3.4 174 159 +39 +28

CLASSIFICATION GOOD PLUS JUN 81

DATE OF/DE QUALIFICATION 22 DECEMBER 1981

Interim policy in effect until 01 January 1982

This photocopy/application of the original NIP card indicates acceptance as a Qualified Dam under the rules of the Qualified Entry Program. This interim form should be considered official for identification purposes. After the Board of Directors approve a certificate design in September of 1981, an official Certificate of Recognition of Qualified Dam will be issued to replace this photocopy/application. Daughters of the above "Qualified Dam" are eligible for registration in the Herd Book upon application in the regular manner.

To qualify the Dam must:

1. Have a suffex "D" or "E"
2. Classified Good plus or better
3. At least 160 BCA or 120 BCA with a deviation of +20 or better from herd average

The next page is a copy of the Registration certificate for the calf from the above Dam. Anyone having animals upgraded from N.I.P. to Registered status please notify the Manitoba Milk Recording office for publication in future Annual Reports.

PROCEDURE AND RULES FOR OFFICIAL DHIA

Procedure:

1. Complete N.I.P. formsets for all grade cows.
2. After receiving processed N.I.P. cards from JDBC, complete an application for Official DHIA and return this to the Milk Recording office.
3. When the supervisor completes the first special information sheet your herd will be on Official DHIA.

Rules:

1. All cows in the herd must be positively identified by registration paper or processed N.I.P. card.
2. Co-operate with D.H.I.A. Supervisor in testing milk weighing devices prior to the evening milking on test day.
3. Sign the computer barn sheet verifying that production and status dates are correct.
4. Put up Supervisor for the night (if requested) on rotational tests (2 times per year).

1981 D.H.I.A. ROLLING HERD AVERAGES (R.H.A.)

(Taken from the 365 day averages on the last monthly report in 1981)

The HOLSTEIN-FRIESIAN ASSOCIATION OF CANADA
P.O. BOX 610, BRANTFORD, ONTARIO, CANADA N3T 5R4

DAVID H. CLEMONS
SECRETARY-MANAGER AND CHIEF EXECUTIVE OFFICER

CABLE: HOLSTEIN BRANTFORD TELEX: 061-81139 TELEPHONE: (AREA 519) 752-5401

QUALIFIED ENTRY PROGRAM

Purpose: To enable breeders of purebred Holstein-Fresian cattle to benefit through the use of superior females which are not currently eligible for registration in the Herd Book.

Purity: To ensure that all animals in the Herd Book are typical Holstein-Friesians, no calf shall qualify for entry to the Herd Book through this program unless it is a female accepted according to the rules of the Association as the progeny of a bull registered in the Herd Book of the Association, and a Holstein-Friesian cow designated as a "Qualified Dam". Only cows identified in the National Identification Program as the fourth known generation ("D") at least, shall be eligible for designation as "Qualified Dam".

Performance Qualifications: To be recognized as a "Qualified Dam", a cow must be classified Good Plus or better and have produced one official milk record which meets one of the following minimum requirements for both milk and fat:

at least 160 BCA, or
at least 120 BCA with a deviation of +20 or better from herd average.

Fees: Payment of a fee of $200.00 is required for designation of a cow as a "Qualified Dam". Female progeny of a "Qualified Dam" shall be registered at the same fees as progeny of registered dams.

Procedure:

Step 1 — a) for a "Qualified Dam", the applicant shall submit the cow's NIP identification card, her type classification form, and an official lactation certificate showing her qualifying record. He shall receive a "Qualified Dam" certificate bearing her name, the names of her parents and their registration or NIP numbers, owner's name, qualifying performance information, markings, NIP number, and her date of qualification.

Step 2 — b) for a calf entering the herd book, the applicant shall submit a registration application on the same form as is used for progeny of registered animals, and appropriate breeding slips. He shall receive a specially marked registration certificate, with the suffix "QE" shown as part of the animal's name. All offspring of such calf to the end of the line shall also carry this suffix.

Special Registration Provisions: No son of a cow carrying the "QE" suffix shall be accepted for registration.

All female offspring of a "Qualified Dam" born after the time of her qualification shall be eligible for registration according to the same rules as for offspring of registered cows, except that they shall carry the "QE" suffix.

Female offspring under 16 months of age at the time of her dam's qualification and being enrolled in the NIP Program within one year of age, shall be eligible for registration at normal fees without penalties.

Official applications for registry for female offspring of a "Qualified Dam" or a prospective "Qualified Dam", not enrolled in the NIP Program, must be filed within one year of birth. Normal fees and penalties, if any, will apply.

PROGRAMME D'ENTREE QUALIFIEE

But: De permettre aux éleveurs de bovins Holstein- Friesians de race pure de bénéficier par l'emploi de femelles supérieures qui ne sont pas présentement éligibles à l'enregistrement dans le livre généalogique.

Pureté: D'assurer que tous les animaux dans le livre généalogique sont des Holstein-Friesians typiques, aucun veau ne se qualifiera pour l'entrée dans le livre généalogique d'après ce programme à moins qu'il soit une femelle acceptée d'après les règlements de l'Association comme étant la progéniture d'un taureau enregistré dans le livre généalogique de l'Association et d'une vache Holstein-Friesian désignée comme étant "Mère Qualifiée". Seules les vaches identifiées dans le Programme National d'Identification comme étant au moins de la quatrième génération connue ("D") seront éligibles pour la désignation de "Mère Qualifiée".

Qualifications de la performance: Afin d'être reconnue comme "Mère Qualifiée", une vache doit être classifiée Bonne Plus ou mieux et avoir produit un record officiel de lait qui satisfait à une des conditions minimum requises suivantes pour le lait et pour le gras:

au moins 160 MCR, ou
au moins 120 MCR avec une déviation de +20 ou mieux de la moyenne du troupeau.

Honoraires: Le paiement des honoraires de $200.00 est requis pour la désignation d'une vache comme "Mère Qualifiée". La progéniture femelle d'une "Mère Qualifiée" sera enregistrée aux mêmes honoraires comme progéniture de mères enregistrées.

Procédure

Premièrement: a) pour une "Mère Qualifiée", le candidat devra soumettre la carte d'identification NIP de la vache, sa formule de classement pour le type, ainsi qu'un certificat officiel de lactation indiquant son record la qualifiant. Il recevra un certificat "Mère Qualifiée" portant son nom, noms de ses parents et numéros d'enregistrement ou numéros NIP, nom du propriétaire, informations sur la performance la qualifiant, marques, numéros NIP et sa date de qualification.

Deuxièmement: b) pour un veau entrant dans le livre généalogique, le candidat doit soumettre une demande d'enregistrement sur la même formule qui est employée pour la progéniture d'animaux enregistrés et les rapports appropriés des saillies. Il recevra un certificat d'enregistrement spécialement marqué, sur lequel le suffixe "QE" sera indiqué comme partie du nom de l'animal. Toute progéniture d'un tel veau, jusqu'à la fin de la ligne, portera aussi ce suffixe.

Provisions spéciales d'enregistrement: Aucun fils venant d'une vache portant le suffixe "QE" ne sera accepté à l'enregistrement.

Toute progéniture femelle d'une "Mère Qualifiée" née après la date de sa qualification sera éligible à l'enregistrement d'après les mêmes règlements que la progéniture de vaches enregistrées, à l'exception qu'elle portera le suffixe "QE".

Toute progéniture femelle âgée de moins de 16 mois lors de la date de la qualification de sa mère et enrollée dans le programme NIP avant l'âge d'un an, sera éligible pour être enregistrée aux frais normaux sans pénalité.

Les applications officielles pour l'enregistrement de progéniture femelle de "Mère Qualifiée", ou de "Mère Qualifiée" en perspective, n'étant pas enrollées dans le programme NIP, doivent être entrées dans les dossiers avant l'âge d'un an. Des frais normaux et des pénalités, s'il y a lieu, seront applicables.

FIRST R.O.P. Q.D. DAM AND Q.E. CALVES

The first Qualifying Dam in Manitoba on R.O.P. is owned by Benner Holsteins of Steinbach.

Cow: Number 253, N.I.P. Number 015-62-27D GP

Sire: Tayside Pabst Rockman

Dam: Number 122, N.I.P. Number 005-64-13C

As a two-year old she has a record of 171 B.C.A. milk and 169 B.C.A. fat with a herd deviation of +27 and +25.

This Qualifying Dam had one heifer calf born in October 1980 and another heifer sired by High Silo Haven Jetstar (VG-Extra). Both of these heifers will be registered.

Unfortunately at time of publication the Qualifying Dam Certificate and the registration papers for the two heifers have not been returned by the Holstein-Friesian office.

NOTES

By Authority of Hon. Bill Uruski
Minister of Agriculture
Province of Manitoba
